Research Interests

Internet of Things (IoT), Artificial Intelligence (AI), Machine Learning, Data Science, Data Analytics, Computer Vision, Intelligent Systems, and Software Development.

Education

Universitas Dian Nuswantoro (UDINUS) Bachelor of Informatics Engineering, Faculty of Computer Science GPA: 3.72/4.00	2022–2026
SMA Negeri 1 Boja Science (Mathematics and Natural Sciences)	2019–2022

Experience

Machine Learning Engineering Intern – SPBE Division Department of Communication, Informatics, Statistics, and Cryptography of Semarang City - Developed object detection models using YOLOv8 for computer vision applications. - Performed dataset preprocessing, annotation, training, and hyperparameter tuning. - Evaluated model performance using precision, recall, and mAP metrics. - Prepared technical documentation and presented project results.	Apr 2025 – May 2025
Administrative Staff Nusa Cell - Managed sales transactions and administrative records accurately. - Assisted customers professionally and handled inquiries efficiently. - Monitored inventory and prepared sales reports using Microsoft Excel.	Aug 2024 – Dec 2024
Student Research Team Member Indonesia Student Creativity Program - Developed an IoT-based automated irrigation system for smart agriculture. - Integrated soil moisture and temperature sensors for real-time monitoring. - Conducted system testing, debugging, optimization, and technical documentation. - Collaborated with team members throughout development and evaluation.	Mar 2024 – Jul 2024

Projects

Online Portfolio A collection of software development, Artificial Intelligence, Internet of Things (IoT), and academic projects. 🔗 nadatiyasa.github.io

Honors & Awards

Student Creativity Program (PKM) Funding Recipient Successfully secured funding under the 2024 Student Creativity Program (PKM) for proposing an innovative IoT-based smart irrigation solution, selected from over 43,000 student teams across Indonesia.	Apr 2024
--	----------

Technical Skills

Programming Languages: Python, C/C++, PHP, JavaScript, SQL, HTML, CSS
AI & Data Science: Machine Learning, Data Analytics, Data Preprocessing, Model Evaluation
Frameworks & Tools: Git, GitHub, Arduino IDE, MySQL, Google Colab, Visual Studio Code, Figma
Office Applications: Microsoft Word, Excel, PowerPoint

Languages

Indonesian: Native
English: Intermediate
